

BIN 54

CHAPEL HILL, NC

*Bin 54 is a boutique steakhouse that is located in the shell space of a previous restaurant. The primary back-of-house and kitchen components were retained while the existing dining, bar area and restrooms were demolished. All areas were updated and re-fashioned to create a new sophisticated environment. A limited budget required the efficient use of millwork and lighting. The traditional, masculine aesthetic of leather and dark stained woods was softened through the use of large pendant light fixtures with printed shades and a warmer color palette. The design was complemented by tasteful decorations supplied by the owner. The understated palette provides a serene backdrop for the fine dining experience.*
