

GENESIS UMC KOINONIA PLACE

CARY, NC

Koinonia Place is a multi-use space that links the various program areas of the Genesis UMC facilities and provides a central gathering spot for pre- and post-worship activities and discipleship. Supported by an adjacent warming kitchen, the space accommodates fellowship and dining functions. Substantial glazing, facing High House Road, provides attractive views and invites passersby to experience the campus. The project included a daycare addition, choir suite and a covered pick-up / drop-off that establishes a literal and figurative front door for the church. The design harmoniously blends with the existing campus and provides a unifying and welcoming public image to the community.
